County Executive Proposed FY 2002 Advertised Budget Plan

Purpose

This fund provides for improvements to public facilities including curb and gutter, sidewalks, street widening, and storm drainage improvements to enhance the conditions and appearance of participating neighborhoods. Neighborhoods are selected for participation in the program on the basis of their need for general community improvements due to problems of road and yard flooding, traffic problems, and their willingness to share in the implementation of a Community Plan. The program focuses on the preservation and improvement of the County's older, yet stable, neighborhoods of predominantly single family homes, which are currently threatened by deterioration.

Homeowners receiving improvements from the program reimburse the County for their share of actual construction costs. The County pays all engineering, administration, and overhead costs. Each homeowner's share is based on the length of street footage of their lot, the type of improvements installed, and the average assessed value of housing in the neighborhood. Homeowner's payments, made once construction is completed, can be paid in one lump sum amount, or in semi-annual installments with interest over a ten-year period. For elderly or disabled homeowners, payment may be extended beyond the ten-year pay back period. These homeowner payments are used to offset debt service costs associated with the issuance of General Obligation bonds for the Neighborhood Improvement Program.

The Neighborhood Improvement Program is financed with General Obligation bonds approved by the voters in four referenda totaling \$76.33 million. This includes: \$12.33 million in November 1980, \$20.0 million in November 1984, \$20.0 million in November 1986, and \$24.0 million in November 1989. To date authorized but unissued bond funds in the amount of \$2.995 million remain from the November 1989 referendum.

¹ These funds are payments from homeowners for their contribution toward construction costs associated with improvements in their neighborhoods. Bond funds are used to finance these projects. Upon completion of construction, the improvements are assessed and the homeowners make their payments with interest. Funds received (i.e., both principal and interest) will be transferred to Fund 200, County Debt Service, to partially assist in paying the debt service costs associated with Neighborhood Improvement projects.

² The sale of bonds is presented here for planning purposes only. Actual bond sales are based on cash needs in accordance with Board policy. On November 7, 1989 the voters approved \$24.0 million for the Neighborhood Improvement Program. The actual amount approved by the Board of Supervisors for the Spring 2001 bond sales was \$1.8 million. Including prior sales, there is a balance of \$2.995 million in authorized but unissued bonds for the Neighborhood Improvement Program.

³ In order to account for revenues in the proper fiscal year, an audit adjustment in the amount of \$3,180 has been reflected as a decrease to FY 2000 revenues. The audit adjustment has been included in the FY 2000 Comprehensive Annual Financial Report (CAFR). Details of the FY 2000 audit adjustments were included in the FY 2001 Third Quarter Package.
